PHELPS-DODGE NEW OWNER OF SAVANNA CLAIMS

Deal Said to Involve \$700,000
Closed for Famous Copper and Iron Properties; Has Been On for Months.

Silver City, N. M., Dec. 29.—The last major mining transaction of the year was the most important through a subsidiary, the Barron Mountain Copper Company, the Phelps-Dodge interests have retained the ownership of the Savanna company's holdings in the Barron Mountain district. The consideration is understood to be \$700,000 cash.

The Savanna Copper company is a Duluth corporation and had extensive iron and copper claims in the Barron, with silver claims at Chloride Flat and several producing mines at Pinos Altos.

The first offer, made some months ago, was \$700,000 for all these holdings, it is said; and when this was refused, the buyers made the same offer for the Barron Mountain claims, which was accepted. Several days will be occupied by the arrangement of minor details connected with the deal before the money is paid over.
